Student involvement/effort
(CTC 1000) Very good. Enjoyed going to class and completing workshops
(CTC 1000) I think I really learned a lot about CTC, coding , I feel like I improved a lot on the knowledge of codings.

(CTC 1000) I always tried my best and finished assignments.
(CTC 1000) Tried my best
(CTC 1000) I contributed my best efforts to this course
(CTC 1000) I put my effort in this class and participated in every class activities.
(CTC 1000) Put a lot of effort into learning and practicing a Basic understanding of HTML, CSS, and Javascript. I'm so glad to understand constructure of them and available to apply function in coding at the almost end of the class. haha. I really appreciate to Halim because she let me know joy of coding.
(CTC 1000) Actively participated in class and prepared for in-class activities and assignments
(CTC 1000) Took this class with no previous knowledge of code as a grad student. Assignments were digestible which made it fun to work through away from class
<b>Reason for taking class</b>
(CTC 1000) Interest in coding
(CTC 1000) I was really interested on codes / etc. I thought it will be helpful to mix with my projects and my major, so I could use on my future projects and skills.
(CTC 1000) wanted to learn code
(CTC 1000) I want to learn how to find resources and enhance my experience with coding
(CTC 1000) Wanting to learn coding
(CTC 1000) To learn how to code!
(CTC 1000) CTC Major Requirement
(CTC 1000) learn about HTML and CSS
(CTC 1000) I wanted to know 'what is the coding'!
(CTC 1000) I had done a little bit of web coding before taking the course and I was interested in learning more about CSS and JS.
(CTC 1000) Wanted to get an introduction to coding and computation
<b>Narrative eval</b>
(CTC 1000) Halim was so nice and always willing to help everyone. She went out of her way to find solutions to everyones specific coding questions
(CTC 1000) was extremely helpful and probably the class i learned the most in at risd
(CTC 1000) I think the course is really practical and inspirational.
(CTC 1000) Halim had great knowledge in the subject matter and made the class interactive and fun
(CTC 1000) The instructor is knowledgeable and skillful in coding.
(CTC 1000) I think sharing code with each other through Arena is helpful.
(CTC 1000) I really enjoyed the class and felt that I learned a lot of new things from it. Sometimes I felt that there were so many different things we were learning every week and that it may be a little intense, especially for students who are new to coding.
<b>Adequacy of space/facilities comments</b>
(CTC 1000) The classroom was cluttered. I felt so bad that Halim was always bumping into the random sharp metal furniture piece by the podium. It was definitely a safety hazard. Too many tables in the space and made it hard for Halim to point out what she was talking about.

(CTC 1000) n/a
(CTC 1000) good space, facilities and safety standards
(CTC 1000) The facilities is safe place to learn.
(CTC 1000) I think it was good
(CTC 1000) There were no problems with the space and the facilities.
<b>Instructor evaluation</b>
(CTC 1000) We all loved Halim. Shes so kind and patient. Always got so excited about our projects and progress.
(CTC 1000) Halim is so sweet and sooo helpful! was really involved in everyone's projects and so forthcoming about helping
(CTC 1000) SUPER HELPFUL AND NICE AND PATIENT WITH US
(CTC 1000) The instructor is kind and inspiring.
(CTC 1000) Halim made the course fun yet meaningful with her Harry Potter themed presentations!
(CTC 1000) HALIM IS AMAZING! she is so involved in student work and she is so good at helping you work through problems. She brings a very positive attitude to class and makes challenges fun and interesting.
(CTC 1000) Knowledgable in coding and came to class prepared always.
(CTC 1000) She is really passionate and sweet. I learned a lot.
(CTC 1000) I think she was well organized, prepared a lot for each class in a way that made it easy for students to follow. Overall, I really enjoyed the class and felt that I learned a lot from it.
(CTC 1000) great instructor, cares about student and student work. patience and extremely energetic .
<b>Clarity of objectives</b>
(CTC 1000) Everything was laid out clearly on the class website and the workshops were a great learning resource as I could easily go back and refer to them if I forgot.
(CTC 1000) great class website
(CTC 1000) Good clarity
(CTC 1000) The course objectives is pretty clear and every assignment is clear on what to do.
(CTC 1000) Each week, class had a very clear class objective with in-class work and assignments based on those criteria. In that sense, I felt it was very clear what the objectives of each class and the overall course were.
<b>Communication skills</b>
(CTC 1000) Amazingg
(CTC 1000) provided great references and always explained everything
(CTC 1000) There was a class website that she coded. it was super organised and communicated subject matter exceptionally
(CTC 1000) The platform website for class was perfect.
(CTC 1000) I think the instructor was very proficient in teaching coding and there were no difficulties in understanding the class material.
<b>Planning/organization comments</b>

(CTC 1000) Always a new subject to learn. I loved the AR workshop at the end. Sad I didnt have enough time to include it in my final but I now know for the future
(CTC 1000) very well structured
(CTC 1000) Well planned and organised
(CTC 1000) I think workshops from Halim were really useful and helpful. I was glad to learn about many useful tools and websites and a basic understanding of coding at the same time in one class!
(CTC 1000) The theme of the course was excellent, really engaging
<b>Enthusiasm/curiosity comments</b>
(CTC 1000) Always open to what we have to share and gave us opportunities to share our work with the class and inspire each other/ generate new ideas
(CTC 1000) yes!! definitely so sweet and a very enthusiastic presence in class
(CTC 1000) Halim herself was so enthusiastic and passed on the spirit in class
(CTC 1000) The given workshop were really attractive and fun to experiment with.
(CTC 1000) Everyone was so goood.
<b>Participation/critical thinking comments</b>
(CTC 1000) At first I was hesitant but now I love being able to see everyones work as they present to the class. Doing it frequently makes it less scary
(CTC 1000) yes. always encouraged feedback
(CTC 1000) she always gave us external resources catered to our personal projects and urged us to learn more
(CTC 1000) We had in-class presentations every class to share our coding with other students.
<b>Concern for development comments</b>
(CTC 1000) Always had individual meetings and asking students if they needed more one on one help
(CTC 1000) went above and beyond to answer questions
(CTC 1000) she was very invested in our development in coding
(CTC 1000) Personally, I felt I learned a lot of new things and gained a lot of references for future coding projects.
<b>Instructor performance comments</b>
(CTC 1000) Love Halim!!! I would give her a raise!!
(CTC 1000) great and very talented prof.
(CTC 1000) Really good performance!!
(CTC 1000) I really recommend the class and hope to possibly take another class by the same instructor.
